

## Connecting to non T-Mobile HotSpots

Date Published: 9/17/07

**Software Affected:** Software bundle: 4.2.2.161 (288)

### TIP:

To log in to a non T-Mobile HotSpot or to a network that requires a log in, follow these steps:

1. Make sure Wi-Fi is on (select **Manage Connections, Wi-Fi**).
2. From the Home screen, scroll to the **Browser** icon and press the trackball.
3. Scroll to **Wi-Fi HotSpot Login** and press the trackball.
- A log in page opens.

To log in to a non-T-Mobile HotSpot manually, follow these steps:

1. Make sure Wi-Fi is on (select **Manage Connections, Wi-Fi**).
2. From the Home screen, scroll to the **Set Up Wi-Fi** icon and press the trackball.
3. Scroll to **Next** and press the trackball.
4. Scroll to **Manually Add Network** and press the trackball.
5. Type the name of the network.
6. Select **Add**.
7. Scroll to **Connect** and press the trackball.
8. Scroll to **Next** and press the trackball.
9. Scroll to **Wi-Fi Hotspot Login** and press the trackball.
10. Verify that a login page opens.
